Department of Artificial Intelligence & Machine Learning

Student Induction Program Batch 2022 REPORT

Event Name: “Student Induction Program” **Event**

Description:

Department of AI & ML has taken an initiative to conduct the Student Induction Program for the Batch of 2022. At the beginning of every academic session, Student Orientation Program is held for fresh students. Students are given information about Syllabus, examination system, internal marks, Program outcomes, Presentation of credits for the upcoming semesters etc. The Student Induction Program was conducted by the HoD, faculty and students of 5th Semester.

Event Initiated and conducted detail:

Event was conducted from 7th November 2022 (9:30am-4:00pm).

Mode of Conduction: Offline Mode

The Student Induction Program was conducted for the students of 3rd Semester giving them a warm welcome to the Department of Artificial Intelligence and Machine Learning. The program started with the two hosts giving a formal introduction about the Department. Its vision, Mission, what the department focuses on and what the department strives to achieve in the coming years.

After the introduction to the Department there was an introduction to our faculties followed by an addressing given by our HOD Dr. N V Uma Reddy to the fresher's of Artificial Intelligence and Machine Learning department. She also presented the Scheme of 160 credits, the importance of each subject in each semester and explained how they have designed the syllabus according to the new education policy. Followed by that was an informative Session given by Mr.Umamaheshwaran regarding the myths of Artificial Intelligence and Machine learning. After all the formalities were done came up some fun events and games to play. There were many fun events like memory game, Pictionary, card building, an online quiz which had around 15 technical questions and misconception check. Prizes were given to the top three winners. After the events were done was the introduction of the two clubs: BrAIInIAcs(technical) and Evolve.ai(Non-technical) where the presidents of both the clubs gave an introduction to the clubs and what they aim to do in their respective clubs in the field of technical and Non-technical. The club introductions were followed by the introduction of club members as well. Ending the program were five students from 5th semesters sharing their experience, about how their two years in the department was and sharing a few tips to the fresher's on how they can balance studies and extra curricular activities. Overall it was a successful, informative and fun program where the fresher's got an idea about the department, faculties and clubs.
