WE CAN **WE WILL**

Event Name: "MODEL G20"

Event Description:

The Model G20 is a simulated forum that aims to address the global challenges associated with climate change. In this report, we propose a framework for the Model 20 summit, which involves two parallel tracks: the finance track and the sherpa track. The discussions in these tracks will be conducted separately, leading to policy suggestions and solutions. the country selection process is providing an inclusive and educational experience for participants. Participants, having been assigned countries, engage in comprehensive research on their respective countries' positions, policies, and priorities related to the theme of incentivizing sustainability in the face of climate change. Participants represented India, United Kingdom, China and France

The event was initiated and conducted on 15th May, Monday, 2023 from 1:45 pm to 3:00 pm.

2.1 Finance Track

The finance track will comprise delegates responsible for economic and financial policy discussions. Each delegation within the finance track were consist of a finance minister and a Central Bank Governor, along with their respective deputies. The finance minister leads the delegation, while the Central Bank Governor acted as the deputy. These delegates engaged in discussions concerning financial mechanisms, investment strategies, and economic incentives to promote sustainability.

2.2 Sherpa Track

The sherpa track was composed of delegates focused on sustainability and environmental considerations. Each delegation within the sherpa track consists of a Sherpa and a Sous Sherpa, along with their deputies. The Sherpa lead the delegation, with the Sous Sherpa serving as the deputy. The sherpa track discussions revolved around climate change mitigation, renewable energy promotion, conservation efforts, and sustainable development strategies.

3. Delegation Structure and Team Composition

Each delegation in the Model G20 summit will comprise 5-7 members. The suggested composition of the delegation team is as follows:

3.1 Finance Track Delegation:

- Finance Minister
- Deputy Finance Minister
- Senior Adviser
- Team Leader

3.2 Sherpa Track Delegation:

- Head of State
- Deputy Head of State
- Senior Adviser
- Team Leader

The Senior Advisors in both tracks will act as the 6th and 7th delegates in each delegation. They will provide additional expertise and collaborate with both the Finance and Sherpa Tracks, facilitating a cross-pollination of ideas and perspectives.

4. Final Track: Leader's Summit

After separate deliberations in the finance and sherpa tracks, a final session called the Leader's Summit will be held. This summit will bring together all participants from both tracks to replicate the real G20 Leaders' Summit. During this session, the discussions and deliberations will lead to the formulation of draft policy recommendations.
5. Conclusion

The proposed framework for the Model G20 summit involves two parallel tracks: the finance track and the sherpa track. In both provides an engaging platform for participants to understand global governance, diplomatic negotiations, and the complexities of addressing climate change. Participants showed fostering critical thinking, teamwork, and policy-making skills by providing excellent solutions:

- Renewable Energy Transition
- Carbon Pricing and Emissions Reduction
- Sustainable Agriculture and Land Use:
- Green Infrastructure and Transportation
- Climate Finance and International Cooperation

The experience equips participants with a deeper understanding of international relations, sustainable development, and the challenges and opportunities presented by climate change. This structure ensures dedicated discussions in each area of expertise. The final leader's summit combines the outcomes from both tracks to formulate draft policy recommendations on incentivizing sustainability in the face of climate change. This approach promotes collaboration, multidisciplinary solutions, and effective policy formulation within the Model G20 framework

Winners in each category are as follows:

Outstanding Sherpa Track deliberation-

Anand C (1NH21CS024)

Outstanding Finance Track deliberation-

Sai Charan (1NH20AI031)

Best Policy recommendation- France

Team members:

Sudiksha (1NH21AI105)

Parimitha(1NH21AI074)

Keerthana(1NH21AI044)

Siya(1NH21AI099)

Darshan(1NH20AI026)

Sai Charan(1NH20AI031)
