Convenor
Dr. N V Uma Reddy
HOD - AIML

The Department of Artificial Intelligence and Machine Learning had conducted a workshop on A Comprehensive Guide to Overseas Education on 24th April 2025 at Falconry Seminar Hall by Mr. Guru and Mr. Srivatsa.

Objective

To provide the students with comprehensive guidance on pursuing Higher Education in the United Kingdom, including selecting the right university, navigating the admissions process, and adopting effective study strategies for a successful international academic journey.

Description

We had the privilege of hosting Mr. Guru, a UK Education Specialist certified by the British Council and IDP. With over four years of experience in this field, Mr. Guru has successfully enrolled more than 4,500 students and personally guided over 350 students into prestigious institutions such as the University of Oxford, King's College London, UCL, Imperial College London, and the University of Manchester. He provided valuable insights into university admissions, application timelines, required documentation, scholarships, and visa procedures. His practical knowledge and first-hand experiences offered students a clear understanding of how to make informed academic choices.

We were honoured by the presence of Mr. Srivatsa, Strategic Alliance Manager, whose efforts in building impactful partnerships has created meaningful opportunities for students to explore global education pathways. His contributions added significant value to the session. Special thanks went to Dr. Uma Reddy, Head of Department, for her unwavering support in organizing the session and for consistently creating platforms that enables students to engage with industry experts. The session not only addressed students' queries but also fostered a motivational and preparatory environment for those aiming to succeed academically in the UK.

Event Initiated and Conduction Details

Date: 24th April 2025

Time: 10:00 AM-11:00 PM

Venue: Falconry Seminar Hall, NHCE

Convenors: Dr. N V Uma Reddy, Professor and HoD AI and ML,

Coordinators:

Sandharani V, Senior. Assistant. Professor.,

AI and ML,

K S Shashikala, Senior. Assistant. Professor., AI and ML,

Total number of participants: 92
